

CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD
SAN FRANCISCO BAY REGION

ORDER NO. 77-69

NPDES NO. CA0038377
ORDER AMENDING ORDER NO. 75-16 TO ADOPT A REVISED
COMPLIANCE TIME SCHEDULE

FOR

FAIRFIELD-SUISUN SEWER DISTRICT
CORDELIA PLANT
CORDELIA, SOLANO COUNTY

The California Regional Water Quality Control Board, San Francisco Bay Region, (hereinafter called the Board) finds that:

1. The Board on April 15, 1975, adopted Order No. 75-16 (NPDES Permit No. CA0038377) prescribing waste discharge requirements for Fairfield-Suisun Sewer District's Cordelia Plant, hereinafter called the discharger.
2. The discharger currently discharges an annual average of 0.095 million gallons per day (mgd) of secondary treated effluent into Green Valley Creek or to a wastewater reclamation pilot study being conducted by the Bureau of Reclamation. The existing permit prohibits discharge of effluent to Green Valley Creek after March 1, 1977, based on plans to end the wastewater reclamation pilot study by that date, with the influent then to be diverted to the Fairfield subregional plant located three miles northeast of the Cordelia plant.
3. In a letter dated March 14, 1977, the discharger requested an extension of the discharge permit to June 30, 1978, in order to allow the Bureau of Reclamation to continue the wastewater reclamation pilot study program.
4. This project involves the continued operation of a publicly-owned facility to provide sewerage service with negligible or no expansion of use beyond that previously existing. Consequently, this project will not have a significant effect on the environment based upon the exemption provided in Section 15101, Title 14, California Administrative Code.
5. The Board has notified the discharger and interested agencies and persons of its intent to amend requirements.
6. The Board, in a public meeting, heard and considered all comments pertaining to this discharge.

IT IS HEREBY ORDERED that the Regional Board amend Order No. 75-16 to read as follows:

Prohibition C.1

The discharge of waste to waters of the State after July 1, 1978, is prohibited.

Provision D.2

Compliance with Prohibition C.1 shall be achieved according to the following schedule:

<u>Task</u>	<u>Report of Compliance Due</u>
Status report	January 1, 1978
Full Compliance	July 15, 1978

Provision D.7

This Order expires on July 15, 1978, and the discharger must file a Report of Waste Discharge in accordance with Title 23, California Administrative Code, no later than 180 days in advance of such date as application for issuance of new waste discharge requirements.

I, Fred H. Dierker, Executive Officer, do hereby certify the foregoing is a full, true, and correct copy of an Order adopted by the California Regional Water Quality Control Board, San Francisco Bay Region, on June 21, 1977.

FRED H. DIERKER
Executive Officer
